RE: WIL/INDUSTRY EXPOSURE

08 August 2019

This letter is my personal recommendation for Khoza Innocent that until just recently, I have been Khoza's Communication Networks Lecturer for almost two years. I found him to be consistently pleasant, tackling entire tasks given to him with dedication and full commitment. He is intelligent in a way that he is capable of working as individual and also team member. Again, I have observed Khoza over the past several months and during that time he has consistently impressed me with both his technical (configuration of internetworking devices such as routers, switches, servers and etc) and leadership skills (communication, self-esteem and etc). It is because of his performance and professionalism that I request your company on his behalf to provide him with Industry Exposure, that he may advance his career at National and International level. I am happy to act as the reference for Khoza and I can speak to his student ethics, communication and leadership skills. I believe, this gentleman would be an asset to any organization and I gladly give him my wholehearted endorsement.

STUDENT NAME: BI Khoza

STUDENT NUMBER: 215688062 (ND IT: Communication Networks Specialization)

Your co-operation is highly valued.

Yours-in-service

Mr Z. Mapundu (WIL Coordinator / Lecturer)
